

SAVE THE HILLS CENTRE

As you may know, your Hills Centre is about to be demolished. It doesn't have to be demolished for the station. The train station, Showground and the Hills Centre can co-exist together and serve each other. But we need your help.

Once the railway has been constructed, then the site the Hills Centre stood on may become medium / high density housing.

We have no other venue this large and purpose built for performing arts in the Hills District (or even adjoining areas). Hills Shire Council said they will not replace it, or another venue as large as 1,000 seats. This is YOUR Centre from YOUR donations and rates.

We will table this in Parliament for debate if 10,000 signatures are raised. Any age can sign as long as they understand the petition is going to Legislative Assembly.

Please sign the attached so that we can save the Hills Centre for the community. It will be newly renovated and managed so it is profitable and brings in more shows and business events.
